PROFESSIONAL SUMMARY

High-performing **Computer Science (Data Science)** student with a **9.4 CGPA** and extensive experience in **Full Stack Web Development**. Proficient in building scalable applications using the **MERN stack (MongoDB, Express.js, React, Node.js)** and integrating **AI models via OpenAI APIs**. Proven track record of delivering end-to-end prototypes in high-pressure hackathon environments. Seeking a Full Stack Developer Internship to leverage expertise in RESTful APIs, database architecture, and cloud-based AI solutions.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), Python, Java, C, C++, SQL
- **Frontend:** React.js, Redux, HTML5, CSS3, Tailwind CSS, Responsive Web Design
- **Backend:** Node.js, Express.js, RESTful API Design, MVC Architecture, JWT Authentication
- **Databases:** MongoDB (Mongoose), MySQL, PostgreSQL, Schema Design & Optimization
- **AI/ML:** OpenAI API Integration, Prompt Engineering, NLP Basics, Flask
- **Tools/DevOps:** Git, GitHub, Postman, Docker (Basics), Vercel/Netlify Deployment

SOFTWARE PROJECT EXPERIENCE

TravelMate – AI-Powered Travel Planner

May 2025

React, Node.js, MongoDB, OpenAI API

[View Project](#)

- Developed a full-stack travel platform that automates itinerary generation, handling **100+ unique user scenarios** with 95% response accuracy.
- Architected **8+ secure RESTful APIs** for user authentication (JWT) and real-time trip management.
- Optimized MongoDB query performance by **20%** through strategic indexing and structured middleware implementation.

Expense Tracker – Finance Management System

Aug 2025

React, Node.js, MongoDB

[View Project](#)

- Engineered a comprehensive CRUD application featuring category-based analytics and automated monthly summaries.
- Designed a scalable database schema to handle complex financial datasets, ensuring **sub-second data retrieval times**.
- Improved user retention by implementing a mobile-first responsive UI using CSS3 Grid and Flexbox.

KeyWrite – AI Writing & Grammar Assistant

Sept 2025

Python, Flask, OpenAI API

[View Project](#)

- Built a Python-based utility that leverages GPT models to provide real-time grammar correction and style enhancement.
- Streamlined API request handling, reducing latency by **15%** through structured processing logic and error-handling wrappers.

EXPERIENCE & ACHIEVEMENTS

Full Stack Developer – Hackathons

2025 – Present

- Selected as a finalist/participant in **4+ national level hackathons**, including **NIT Durgapur**, competing against 200+ teams in cross-functional Agile environments.
- Delivered end-to-end full stack prototypes within **24 to 48 hours** using React.js, Node.js, and Python.
- Performed debugging, API integration, testing, and deployment under strict production deadlines.

EDUCATION

Bachelor of Technology in Computer Science (Data Science)

2024 – 2028

Dev Bhoomi Uttarakhand University, Dehradun

CGPA: 9.4 / 10.0
