EXPERIENCE

Codeholic IT Service Pvt. Ltd. — India

Web Developer

2024 – Present

- **Backend API Development:** Developed and maintained 15+ scalable RESTful APIs using FastAPI and Django for enterprise-level applications.
- **Database Optimization:** Designed PostgreSQL schemas and optimized complex queries to improve performance and scalability.
- **Authentication & Authorization:** Implemented secure role-based access control (RBAC) systems for multi-user environments.
- **Payment Integration:** Integrated payment gateways including Stripe, Razorpay, and PayPal for secure and reliable transactions.
- **Inventory Management:** Built backend modules for inventory and stock systems supporting real-time updates and operations.

PROJECTS

CRM System with Integrated Inventory Management

- Developed a full-featured CRM system including organization, project, task, and inventory modules.
- Built REST APIs supporting multi-user role-based access control.
- Optimized database queries to enhance performance and reduce response time.

Jio20 – Digital Product E-Commerce Platform

- Developed backend services for a high-traffic digital product purchasing platform.
- Implemented coupon reward system and time-based redemption logic.
- Designed scalable APIs capable of handling high-volume transactions and concurrent users.

Djangora – Agora Energy Dashboard (Germany)

- Developed secure backend APIs for analytics and visualization dashboards.
- Implemented API key generation and management system for secure access control.

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, JavaScript
- **Backend Technologies:** FastAPI, Django, Express.js, Spring Boot
- **Frontend Technologies:** React, HTML, CSS
- **Databases:** PostgreSQL, MySQL, MongoDB, Redis
- **Tools & Technologies:** Git, GitHub, Docker, REST APIs, Linux
